US FDA Compliance	All raw materials in this product are in compliance with FDA (Food and Drug Administration in the USA) 21 CFR parts 170 to 199.
Non-food contact usage temperature	Minimum temperature: Maximum temperature: 130 °C
General	Equipment should be cleaned, disinfected and sterilised, as appropriate to it's intended use, before use. Appropriate equipment decontamination will minimise the risk of microbial growth and cross contamination and will maximise the efficiency and durability of the equipment. It is also important to clean, disinfect and sterilise equipment as appropriate after use, using the appropriate decontamination chemicals, concentrations, times and temperatures. Vikan A/S is registered with the Danish Veterinary and Food Administration (DVFA), and our mandatory Own Control System is subject to inspection by the DVFA. We will make the relevant background documentation available to the competent authorities, at their request.
