

HyGo

Mobile Cleaning Station

Hygiene,
Efficiency and
Manoeuvrability

Wherever you go, **HyGo**

HyGo from Vikan is the food and beverage industry's first mobile cleaning station to combine hygiene, efficiency, and manoeuvrability in a purpose-built solution.

HyGo combines industry feedback and Vikan's own experience, making it the ideal compact solution to organise and transport sanitation tools in food production, food service, and retail environments.

HyGo is durable and designed with cleanability in mind. Smooth, drainable surfaces, and minimal harborage points reduce the risk of contamination.

Beyond elevating sanitation efforts, HyGo also conquers space challenges, lost equipment, and wasted time. With a fleet of customisable HyGos on the production floor, tools stay organised and get to where they are needed quickly.

HyGo is also available in six colours to support you colour-coding programs.

Reasons to try HyGo

01

Compact Manoeuvrability

HyGo's compact design transports your cleaning tools to exactly where you need them and conveniently rolls out of the way when not in use.

02

Customisable Storage

Not only does it come in a range of colours, HyGo can be customised to suit users' needs and preferences.

Mounting tool brackets:

03

Durable Construction

HyGo is a purpose-built solution that has been tested to take on the unique challenges posed by food handling environments.

04

End-user Driven Design

HyGo was developed in close co-operation with food industry professionals to ensure a product that meets their needs.

05

Improved Efficiency

HyGo keeps tools organised and readily accessible, reducing wasted time and effort spent searching for, transporting, and storing cleaning tools.

Design Features

• Cleaning and Storage Efficiency

- Reduces time spent locating tools, moving them to the cleaning area, and returning them to their storage location.
- Stores cleaning tools after use, minimises the risk of tool damage, and keeps tools organised for future use.
- Allows employees to move more cleaning resources at once including heavy chemical containers and unwieldy brooms.

• Purpose-Built

- Developed from industry feedback and input.
- Made from the same high-quality materials as other tools in our hygiene range.

• Compact Manoeuvrability

- Designed to fit in small spaces and easily pass through doorways.
- The cleaning station's low centre of gravity helps prevent tipping, while the wheel placement and their 360° rotation ensure excellent manoeuvrability even over drains, door thresholds, and rough floors.

• Designed with Cleanability in Mind

- The drainable trays and frame help reduce pooling liquids, helping HyGo dry quickly after cleaning.
- Hygienic design features like smooth surface finishes with rounded corners and edges reduce harborage points, making HyGo easier to clean.
- The frame and handle of the cleaning station are formed of solid polypropylene, thus eliminating the risk of fluids becoming trapped inside.

• Colour-Coded

- Available in 6 colours to support your colour-coding system, helping minimise the risk of cross-contamination.
- The side bars, handle, and tool brackets are coloured to quickly identify whether tools are being used and stored in the correct area.

Functionality

Customisable Tool Storage

- The top tray is designed for mounting tool brackets on the front and/or back.
- You can configure the brackets to suit your facility, and easily change them as needed.
- HyGo includes 1 Tool bracket rail, 2 grip band modules, and 3 hooks to accommodate 5 tools.
- Up to 12 tools can be mounted on HyGo with additional accessories.

Durable Construction

- The top tray can hold up to 12 kgs.
Example: one Vikan cloth box (581518) and one round 2.5 litre chemical container.
- The middle tray can hold up to 20 kgs.
Example: one 12-litre Vikan bucket (5686x), or two 10 litre containers.

Sturdy Locking Wheels

- Reduce noise while rolling and easily clear obstacles like drains, floor junctions, and door thresholds.
- Locks on the back wheels prevent the cart from moving when required, and easily unlock when it's time to move again.

Easy Assembly & Disassembly

- The mobile cleaning station can be disassembled and reassembled for easy cleaning.
- Max. cleaning temperature is 93°C.
- A printed assembly guide and links to an online assembly video are included.
