Where Vikan and Remco Scrapers can help

Hot or cold, large or small, hard or soft, close by or far away. Our scraper family meets ALL your scraper cleaning needs.

STAINLESS STEEL SCRAPERS

Tough soils

For some messes, only steel will do the job. Our selection of handheld stainless steel scrapers can handle even the toughest soils, with rounded blade corners that protect surfaces from scratching.

NYLON SCRAPERS

Hot surfaces

Hot surfaces can be difficult to scrape clean. Polypropylene scrapers can't tolerate prolonged contact with high temperatures. Metal scrapers can withstand the heat, but may damage sensitive surfaces. Our nylon scrapers are tough and heat-resistant to help you get tough messes off of hot surfaces.

LARGE THREADED SCRAPERS

Large areas

Scraping soils from floors, walls, and other large surfaces can be time-consuming and tedious work. Our large stainless steel scrapers help you cover more ground faster while providing the perfect balance of strength and flexibility.

POLYPROPYLENE SCRAPERS

Sensitive surfaces

There are many surfaces in food and beverage production facilities that shouldn't be cleaned with steel scrapers. Our polypropylene scrapers are tough on soils, but go easy on surfaces that steel can scratch or otherwise damage.

HANDLES

Distant areas

Bending down to scrape soils from floors and climbing to reach overhead surfaces is difficult and potentially dangerous. Vikan threaded handles make this work easier and safer. They fit all Vikan and Remco threaded scrapers.

Cut, scrape, and clean with this all-in-one scraper solution

The Dough Cutter/Scraper can cut through dough, scrape off tough debris, or clean sticky deposits, all while being easy to hold.

Color-coded:

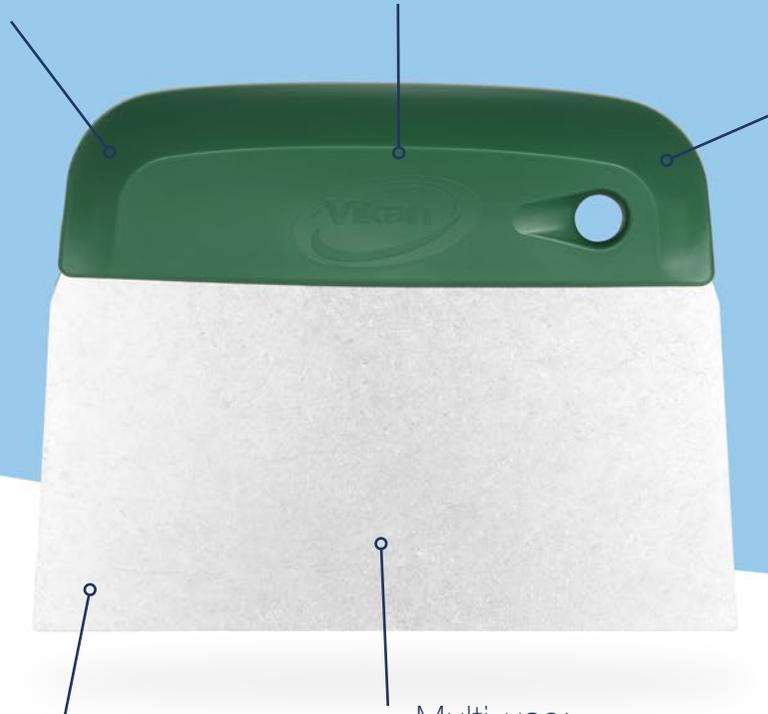

Available in 6 of our most popular colors.

Ergonomic hand grip:

The hand grip fills the palm, preventing strain and ensuring a strong, non-slip hold on the cutter.

Hanging hole:

The hanging hole allows the dough cutter to dry and be stored on shadow boards or wall hooks.

Stainless steel blade:

The flexible 0.5 mm blade has a high-strength attachment for extra durability.

Multi-use:

The stainless steel blade cuts dough, pastry, and other soft foods, removes sticky deposits, and handles burnt or stuck-on debris.

Ideal for cutting and handling dough and removing debris from tables and cutting boards, as well as burnt-on soils from hot-plates, hobs, and baking trays.
