Press release

Vikan launches two new brushes for detail cleaning

Vikan, the global leader in hygienic cleaning tools and systems, added two new brushes to its Detail Cleaning range today. With the new products, the range now includes seven brushes in different shapes and sizes, all designed specifically for awkward cleaning tasks.

From gaps and crevices to complex machinery and pipework, certain cleaning tasks in food and beverage production facilities require specialist equipment. Vikan's Detail Cleaning range includes seven brushes that make it easier for users to ensure regulatory compliance when cleaning awkward spaces.

Today, Vikan introduced two new products to its Cleaning Detail range:

- A narrow cleaning brush with long handle (420 mm, hard)
A versatile brush with a narrow head, long handle and hard, angled bristles – ideal for range of cleaning tasks, including the insides of complex cramped machinery and deep containers.
- An ultra slim cleaning brush with long handle (600 mm, medium)
An ultra-slim brush with a scraping edge and extra-stiff end-bristles – ideal for tackling stubborn debris in extremely tight spaces.

In line with Vikan's sustainability strategy, the *Ultra slim cleaning brush with long handle* is made from re-worked, food-contact-compliant plastic off-cuts from other Vikan products.

"At Vikan, we want to give our customers green alternatives whenever possible," said Jette Fruergaard, Vikan's Hygiene Product Manager. "As our Detail Cleaning products are used in contact with food, we can't make them from recycled plastic originating from post-consumer waste. However, the *Ultra slim cleaning brush with long handle* is made food contact compliant polypropylene offcuts from other Vikan products – making it a greener choice."

All brushes in Vikan's Detail Cleaning range incorporate hygienic design, ergonomic handles and colour coding for HACCP compliance. For more information, contact Vikan Customer Service at export@vikan.com, call us on +45 96 14 26 10, or visit www.vikan.com.

About Vikan

Founded 120 years ago, Vikan is the world's leading supplier of hygienic cleaning tools and systems for the food and beverage industry and other hygiene-sensitive environments.

Headquartered in Copenhagen, Denmark, Vikan has amassed the industry's largest and most-thorough bank of hygiene and regulatory insights. It draws on its 120 years of experience and knowledge to develop the world's most effective customer-focused professional cleaning tools and advisory services.

Vikan provides its customers with professional tools, expert advice, functional design, superior quality and a pioneering spirit.
