Skive January 2022

Vikan products in relation to REACH

We are following the EU regulation 1907/2006 and subsequent amendments regarding REACH (Registration Evaluation Authorisation and restriction of Chemicals).

This Regulation ensures a high level of protection of human health and the environment.

The candidate list from REACH for products that as such constitute a risk for human health and the environment, SVHC (Substances of Very High Concern) is continuously updated and counts 223 substances with the latest update 17th January 2021.

See the following links for further information:

<http://echa.europa.eu/candidate-list-table>

Lead (Pb) CAS-no.: 7439-92-1 was added to the updated REACH candidate list on SVHC of 27th June 2018. Lead (Pb) is present in Vikan products containing brass or chromium plated brass.

If Vikan products contain SVHC substances in an amount above 0.1 % w/w the details regarding substance and SCIP notification number will be specified on the product data sheet on www.vikan.com.

Yours sincerely
VIKAN A/S

Stine Lønnerup Bislev
