Vikan introduces new Upright Dustpan for faster debris pickup

Vikan, the global leader in hygienic cleaning tools and systems, is introducing a new, Upright Dustpan designed to pick up dry and moist debris fast, effectively and ergonomically.

The Upright Dustpan is highly stable and features a 330 mm contact lip for easy and efficient sweeping. Its partly raised pan design prevents debris from falling out of the pan once it's swept in, and high sidewalls hold larger amounts of debris and reduce the number of times work needs to stop for emptying.

“We are constantly listening to what our customers need to make their work easier and more efficient,” said Jette Fruergaard, Vikan’s Hygiene Product Manager. “The addition of our new upright dustpan is a direct result of that customer collaboration.”

Available in six colours to fit into most hygienic colour-coding systems, the new dustpan comes with a 1-metre aluminum handle. However, its hygienically designed handle thread accommodates any Vikan handle.

Vikan recommends that the Upright Dustpan be paired with the Vikan Lobby Broom (Item No. 3105) and 1-metre Aluminum Handle (2933).

For more information about this product and Vikan’s full range of dustpans, dustpan sets, broom and handles, contact Vikan Customer Service at export@vikan.com, call us on +45 96 14 26 10, or visit www.vikan.com.

About Vikan

Founded 120 years ago, Vikan is the world’s leading supplier of hygienic cleaning tools and systems for the food and beverage industry and other hygiene-sensitive environments.

Headquartered in Skive, Denmark, Vikan has amassed the industry’s largest and most-thorough bank of hygiene and regulatory insights. It draws on its 120 years of experience and knowledge to develop the world’s most effective customer-focused professional cleaning tools and advisory services.

Vikan provides its customers with professional tools, expert advice, functional design, superior quality and a pioneering spirit.
